Stebbing's Car Superstore have restored my faith in [Norwich car dealers](#). Their no pressure car salesmen allowed me to browse around all 400 used cars for sale on their forecourt. Stebbings allowed me to test drive the two cars I liked the design and specification of the most, these being an Audi TT and a BMW Z4. I preferred the Audi TT as it had better torque and handles the roads of Kings Lynn effortlessly. The heated seats and CD changer were an added luxury in this car and I am picking up my new car next week, once I have signed the car finance documents.
